

There was only one rule we followed when creating the 2013 Avalon: If you're going to make something, it better be good. We set out to create something entirely new. We wanted it to be radical. We designed and assembled it exclusively in the United States. And we made it the purest expression of everything we love about driving. From this point forward, driving a Toyota will never be the same.

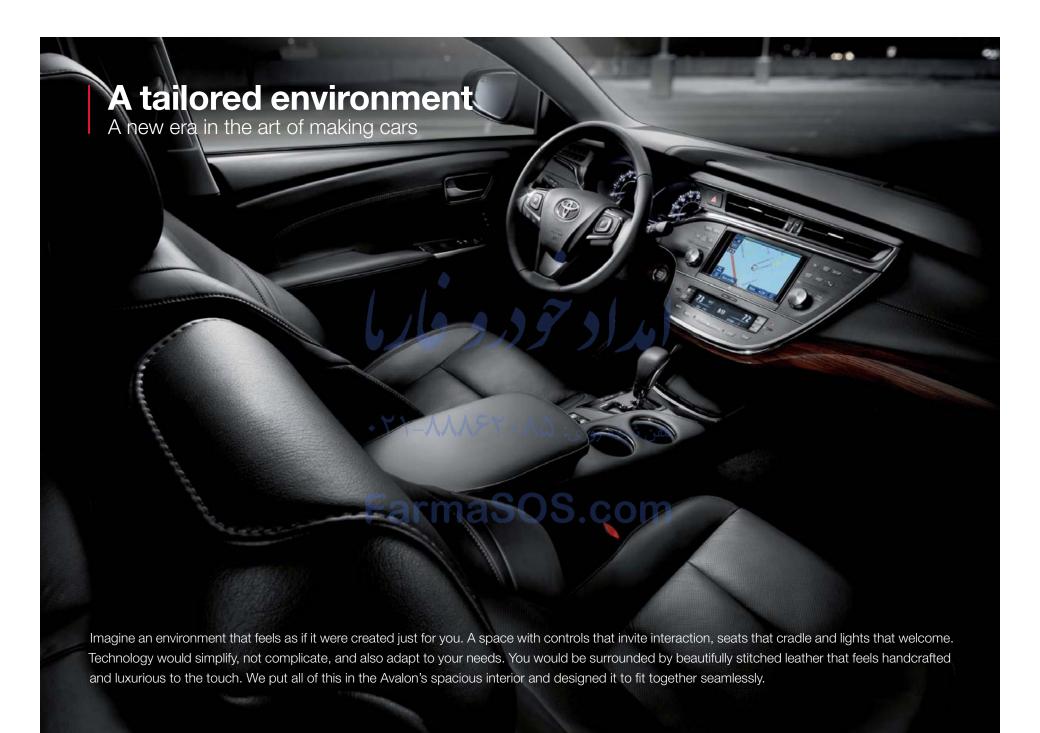

Joy. Excitement. Desire. One touch can communicate so many things. This was the idea behind the technology that surrounds you in the 2013 Avalon. We created sleek IntelliTouch™ controls that are simple to adjust, available Entune^{®1} that gives you access to more information than ever before, and an available backup camera² that helps guide you into, or out of, the tight spots. Not only can Avalon give you clear vision of what's behind you, it can also give you a glimpse of the future.

Technology that connects. With a compatible smartphone, Avalon's available Entune® multimedia system gives you access to more information than ever before. Stream music with Pandora,® locate restaurants with Bing™ and get movie tickets with MovieTickets.com. So much went into this car so you can get even more out of it.

Limited interior shown in Black.

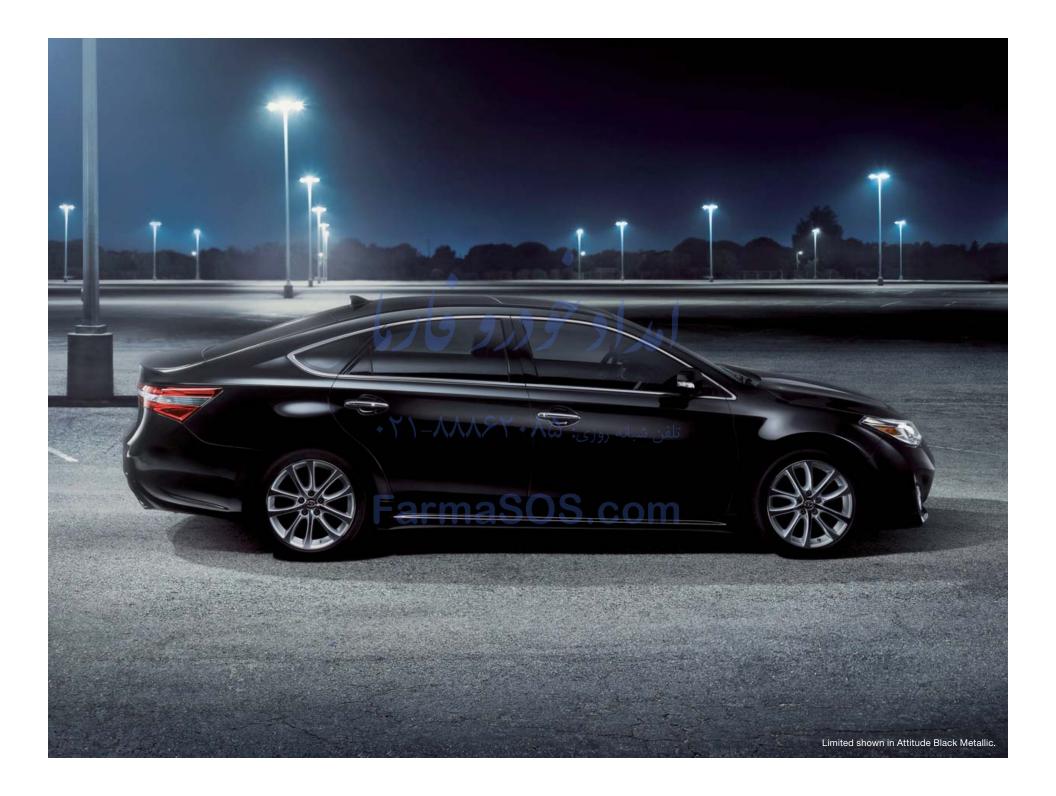

Second row Luxury should not be for the driver only. Avalon's spacious rear seats allow passengers in the second row to feel like they're in first class. With standard three-zone climate control and heated rear seats on Avalon Limited, riding in an Avalon is just as rewarding as driving one.

Premium leather Avalon Limited continues a heritage of ergonomic excellence with standard power-adjustable, premium perforated leather-trimmed heated and ventilated front seats, and leather-trimmed steering wheel and shift lever — like they're tailored to the driver.

eBin[™] Keep technology in its place. Standard on all models, Avalon's eBin [™] features a non-slip surface for your cell phone or MP3 device that's lit and tilts toward front passengers. Plus, it contains two 12-volt power outlets, an auxiliary audio jack and a USB port. Avalon Limited and Limited Hybrid offer the world's first in-console wireless charging^{29, 37} surface integrated into eBin. Just place your Qi compatible device on the non-slip surface and it charges.

See numbered footnotes in Disclosures section.

Passion that performs

A bold way of looking at performance

Our goal was to redefine the art of driving. No detail was overlooked. We started with less to finish with more. We designed a lighter body with a drag coefficient of .28. Each panel was sculpted to help quiet the wind. The chassis was made more rigid for better handling and a crisper response. Then we shaved 119 pounds off the final weight. This is a new era in performance, and we broke every rule to bring you the purest expression of driving.

The art of driving has returned

It all started with a desire for a more connected driving experience. We designed available paddle shifters that allow a driver to change gears with the touch of a finger. We built an engine as powerful as it is efficient with a 3.5-liter V6 that produces 268 horsepower and offers an EPA-estimated 31 mpg⁴ highway. Avalon is an absolute breakthrough in high-end driving and a bold new direction for the road ahead.

A true driver's car Inspired by racing, available steering wheel-mounted paddles provide for a more hands-on driving experience by letting you control when you shift and matching each rev for seamless downshifts. Combined with a 6-speed Electronically Controlled automatic Transmission with intelligence (ECT-i) that learns your driving style, Avalon makes sure that driving a Toyota will never be the same again.

Introducing the Avalon Hybrid

An uncompromising level of performance was our goal for the new Avalon Hybrid. A driving experience that was more than refined — it was revolutionary. We used our proven Hybrid Synergy Drive® system that delivers a spirited ride while at the same time offering up to an EPA-estimated 40 mpg⁴ and an Advanced Technology Partial Zero Emissions Vehicle (AT-PZEV)⁵ emission rating. The world is accelerating, and we're leading the charge.

Multi-Information Display (MID) Avalon's MID shows you everything you need to know. See how much fuel you have left, check your current mpg and, on Avalon Limited, get turn-by-turn directions to your favorite spot – all in one area to help you keep your eyes on the road.

40°/39°

Class-leading fuel economy⁶ Our Hybrid Synergy Drive[®] system and Electronically controlled Continuously Variable Transmission (ECVT) combine for fuel economy estimates that surpass that of many compact cars?

See numbered footnotes in Disclosures section.

Hybrid Limited shown in Nautical Blue Metallic.

Safety

Inspired by the unexpected

It would be great to drive in a world with no surprises, a world where everyone paid attention while they were driving. That world does not exist. The moments when things don't go as planned inspired the six advanced features in the Star Safety System. An available Blind Spot Monitor (BSM)⁸ can signal the unseen, and a backup camera² helps you with the unknown. Add a class-leading ten standard airbags^{9,10} and you have a system working together with one purpose in mind: a more confident drive.

Ten airbags

Avalon comes standard with the most airbags in its class, including driver and front passenger Advanced Airbag System (A, B), driver and front passenger seat-mounted side airbags (C, D), driver and front passenger knee airbags (E, F), rear seat-mounted side airbags (G, H) and front and rear side curtain airbags (I, J).

Blind Spot Monitor (BSM) with Rear Cross-Traffic Alert (RCTA)11

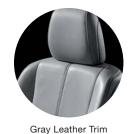

The available Blind Spot Monitor (BSM) with Rear Cross-Traffic Alert (RCTA) uses radar technology to help you identify vehicles that may not be visible when changing lanes or when backing out of the driveway. When a vehicle is detected, the system illuminates a warning indicator on the appropriate sideview mirror, and RCTA also makes an audible warning so you know to proceed with care.

Art of the interior

We created a space that would adapt to your needs. We put the driver at the center of everything: Welcoming seats, intuitive technology and spacious design — all with a premium feel. This is a new era in the art of making cars.

Plush leather options The Avalon offers several leather choices including Limited and Hybrid Limited with premium perforated leather.

Black Leather Trim

Almond Leather Trim

Exterior colors and wheels

Engineering doesn't start and stop under the hood. Avalon's exterior has been redesigned to the wheelwells. With a wide range of colors and trims, no matter what your preference, your Avalon will look just as great as it drives.

TOYOTA FINANCIAL SERVICES

Toyota helps you get more out of every dollar you spend. By rewarding you for every purchase you make, the Toyota Rewards Visa® adds even more value to doing the things you love.

Turn everything you buy into points to redeem toward parts, accessories or an eligible vehicle purchase or lease at your Toyota dealer. Earn 5 points for every \$1 spent at participating Toyota dealers and 1 point for every \$1 spent everywhere else Visa is accepted.*

Visit www.toyotarewardsvisa.com for complete details.

Toyota Financial Services (TFS)† is a leading provider of automotive financial services, offering an extensive line of financing plans along with a variety of vehicle and payment protection products to Toyota customers and dealers in the U.S. For more information on TFS products and services, visit www.toyotafinancial.com

*On approved credit. You must have a valid permanent home address in the 50 United States or the District of Columbia. Terms, conditions and restrictions apply and are fully described in the Toyota Rewards Visa Cardmember Agreement and the Toyota Rewards Program Terms and Conditions received with your card. Points earned are based on net purchases. Points-earning maximums apply and points will expire as described in the Rewards Terms and Conditions. Redemption only available at participating Toyota dealerships in the continental U.S. and Alaska. Points cannot be redeemed for cash. Please contact your participating Toyota dealer for information regarding restrictions your dealer may impose on the use of credit cards related to vehicle purchases or leases. The creditor and issuer of the Toyota Rewards Visa is Toyota Financial Savings Bank. Toyota Financial Services is a service mark used by Toyota Financial Savings Bank.

†Toyota Financial Services is a service mark for Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Hybrid-Related Component Coverage: Hybrid-related components, including the HV battery, battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. The HV battery may have longer coverage under emissions warranty. Refer to applicable *Warranty and Maintenance Guide* for details.

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags). Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Warranty and Maintenance Guide* for details.

Some vehicles are shown with available equipment. Seatbelts should be worn at all times. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty. You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

Ask your Toyota dealer to help locate a specifically equipped vehicle. All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.

Disclosures

1. Always drive safely, obey traffic laws and focus on the road while driving. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. Apps identified by "TM" or "®" are trademarks or registered trademarks of their respective companies. For enrollment, cost and more details, see toyota.com/entune. 2. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 3. May not be compatible with all mobile phones, MP3/WMA players and like models. 4. 2013 EPA-estimated mileage. Actual mileage will vary. 5. AT-PZEV rated by the California Air Resources Board. Meets Tier-2/Bin-3 Federal emissions standard. For more information please visit www.arb.ca.gov 6. Based on manufacturers' data for premium midsize segment. 7. Based on compact car, manufacturer's segmentation. 2013 EPA-estimated 40 city/39 highway/40 combined mileage for Avalon Hybrid. Actual mileage will vary. 8. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are several limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, please see the Owner's Manual. 9. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your Owner's Manual for further information/warnings. 10. Airbag quantities based on Toyota industry analysis. Class based on Polk Full-Size non-luxury segment. 11. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see your Owner's Manual. 12. To avoid potential interference with pedal operation, do not install a floor mat on top of an existing floor mat, and each mat must be secured with either quarter-turn fasteners or retention hooks (clips). This floor mat was designed specifically for use in this model year vehicle and SHOULD NOT be used in any other vehicle. 13. Cargo and load capacity limited by weight and distribution. 14. Available only with vehicles with keyless entry. 15. The Toyota Genuine Accessory Warranty will only apply when the installation is performed by a trained Toyota-approved installer. If the film is installed by anyone else, the Toyota "Parts Only" warranty—12 months—will be applicable instead. Please see dealer for details. 16. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. 17. The automatic high beam system operates at speeds above 21 mph. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. See Owner's Manual for details. 18. iPod® is a registered trademark of Apple Inc. All rights reserved. 19. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. Other trademarks and trade names are those of their respective owners. The Bluetooth® wireless technology phones listed on toyota.com have been tested for compatibility with Toyota vehicles. Performance will vary based on phone software, coverage and wireless carrier. Phones are warranted by their manufacturer, not Toyota. 20. Availability and accuracy of the information provided by the navigation system or any XM services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic Entune® app updates do not include navigation updates. Navigation updates are available at an additional cost from your local Toyota dealer. See your Navigation System Owner's Manual or contact XM for details. 21. XM services require a subscription after trial period, and are sold separately or as a package. Subscriptions governed by SiriusXM Customer Agreement; see www.siriusxm.com. If you decide to continue your XM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 22. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. 23. iTunes® Tagging is a registered trademark of Apple Inc. All rights reserved. 24. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See your Owner's Manual for details. 25. CAUTION! When driving a hybrid vehicle, pay special attention to the area around the vehicle. Because there is little vehicle noise in electric-only mode, pedestrians, people riding bicycles or other people and vehicles in the area may not be aware of the vehicle starting off or approaching them, so take extra care while driving 26. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 27. HomeLink® is a registered trademark of Johnson Controls, Inc. 28. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See your Owner's Manual for further information. 29. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. 30. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. 31. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 32. Smart Stop Technology® operates only in the event of certain simultaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. 33. Whiplash-Injury-Lessening front seats can help reduce the severity of whiplash injury in certain rear-end collisions. 34. The Toyota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your Owner's Manual for details. 35. Available on select Toyota models. Contact with the Safety Connect® response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency service support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect®-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. 36. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key, it can be costly to replace. If you lose a key, your Toyota dealer can help, or you can find a qualified independent locksmith to replace your key or perform high-security key services at www.aloa.org 37. Available with Technology Package option.
